FOR IMMEDIATE RELEASE

**Creative Pultrusions, Inc. and Northstar Vinyl Products, LLC.
Announce Partnership to Manufacture and Market
the Endurance POLARIS and SuperLoc™ Composite Sheet Pile Systems**

ALUM BANK, Pennsylvania (May 21, 2007) – Creative Pultrusions, Inc. (CPI) and Northstar Vinyl Products, LLC of Cartersville, Georgia have entered a partnership agreement. Northstar will become the exclusive marketer of the SuperLoc™ Composite Sheet Pile System in the domestic United States market while also exploring potential opportunities internationally. CPI will become the exclusive manufacturer of fiberglass sheet pile for Northstar.

Jeff Moreau, President and Founder of Northstar states, “Northstar is proud to have Creative Pultrusions, Inc. (CPI) as its manufacturing partner for composite sheet piling. We believe that CPI’s core competency in manufacturing will greatly enhance Northstar’s ability to continue to deliver the highest quality product available in the market. Our customers will be the ultimate benefactor of this new partnership and it’s exciting to be a part of it.”

“We are very excited about the partnership with Northstar. Northstar’s vast knowledge of the marine bulkhead market in combination with Creative’s manufacturing expertise is an equation for success. Creative will compliment Northstar’s existing product line with the SuperLoc™ bulkhead system. The SuperLoc™ system will allow Northstar to continue their growth and market share by expanding their product offerings”, states Shane E. Weyant.

Creative Pultrusions, Inc. is The World’s Most Innovative Leader in the Fiber Reinforced Polymer Composites Industry. Established in 1973, the company operates in Alum Bank, Pennsylvania with a complementary Worldwide Distribution Network.
